## 1. Qualitative Information on Quarterly Consolidated Financial Performance

#### (1) Explanation of Results of Operations

During the first quarter of the current fiscal year (April 1, 2016 to June 30, 2016) (hereinafter, "the current period"), the Japanese economy gradually recovered in a continued strong employment and income environment. However, as appreciation of yen continued, reflecting uncertain global economy, corporate earnings and consumer sentiment remained at a standstill.

Against this backdrop, the Shobunsha Group's e-business sales were 685 million yen, down 214 million yen year on year, because of a continued decline in our sales associated with PNDs (portable navigation devices) due to popularity of free navigation apps as well as sluggish sales of light motor vehicles. Retail publishing sales also decreased significantly by 798 million yen year on year to 1,287 million yen. This was due to a change in timing to publish revised editions of maps and magazines that occurred at the end of the previous fiscal year, causing substantially more number of old editions to be returned to us in the current period than those returned in the same period of the previous fiscal year. Moreover, unlike the same period of the previous fiscal year, we did not have publications of completely revised edition of Japan travel guidebook series and other newly published products during the current period. While sales of special-order products slightly increased year on year, advertising revenue somewhat declined as we failed to achieve large project orders including tie-up advertisements. Overall, consolidated sales for the current period decreased 1,021 million yen (30.8%) year on year to 2,297 million yen.

The Group's profitability for the current period got worse than that for the same period of the previous fiscal year. While there was no provision of allowance for doubtful accounts unlike the same period of the previous fiscal year and was a reversal of provision for sales return, there was a substantial increase in returned products in retail publishing and a decline in sales of e-businesses, for which we had enjoyed a high profit margin. Furthermore, there were an increase in retirement benefit expenses due to application of the revised accounting standard for retirement benefits and also an increase in up-front costs for the new inbound business. Consequently, the Group reported operating loss of 521 million yen (compared with 173 million yen in the same period of the previous fiscal year), ordinary loss of 496 million yen (compared with 159 million yen in the same period of the previous fiscal year), and loss attributable to owners of parent of 500 million yen (compared with 179 million yen in the same period of the previous fiscal year).

## (2) Explanation of Financial Position

Total assets decreased 1,480 million yen (5.3%) from the end of the previous fiscal year to 26,583 million yen at the end of the current period. This was mainly due to decreases in notes and accounts receivable-trade of 1,132 million yen, investment securities of 423 million yen, other in current assets of 175 million yen and work in process of 109 million yen, which were partially offset by increases in cash and deposits of 148 million yen, software of 113 million yen and merchandise and finished goods of 97 million yen. Total liabilities decreased 565 million yen (9.5%) from the end of the previous fiscal year to 5,409 million yen. This was mainly due to decreases in provision for directors' retirement benefits of 246 million yen, notes and accounts payable-trade of 169 million yen, provision for bonuses of 155 million yen and provision for sales returns of 111 million yen, which were partially offset by an increase in other in non-current liabilities of 251 million yen. Total net assets decreased 914 million yen (4.1%) from the end of the previous fiscal year to 21,173 million yen. This was mainly due to a decrease in retained earnings of 845 million yen as a result of the booking of loss attributable to owners of parent and the declaration of cash dividends.

As a result, the equity ratio improved <u>0.9 percentage points</u> to <u>79.5%</u>.

#### Cash flows

Cash and cash equivalents (hereafter "net cash") at the end of the current period on a consolidated basis increased 148 million yen from the end of the previous fiscal year to 10,097 million yen.

Net cash provided by operating activities was 535 million yen. The main factors were depreciation and amortization of 86 million yen, a 1,132 million yen decrease in notes and accounts receivable-trade and other (net) of 241 million yen, while there were loss before income taxes of 496 million yen, a 156 million yen decrease in provision for bonuses, a

111 million yen decrease in provision for sales returns and a 171 million yen decrease in notes and accounts payable-trade.

Net cash used in investing activities was 324 million yen. The main factors were purchases of securities, investment securities and intangible assets of 300 million yen, 100 million yen and 137 million yen, respectively, which were partially offset by proceeds from sales of investment securities of 224 million yen.

Net cash used in financing activities was 339 million yen. The main factor was the cash dividends paid of 333 million yen.

There was also an increase in cash and cash equivalents of 276 million yen from a newly consolidated subsidiary.

## (3) Explanation of Consolidated Earnings Forecasts and Other Forward-looking Statements

Although sales and profits for the current period significantly decreased year on year, performance in the current period was largely consistent with the consolidated earnings forecast despite some increase in cost of sales as a result of accelerated implementation of the database maintenance activities. Consequently, we believe that performance in this fiscal year will be in line with the current forecast. Based on this outlook, there are no revisions to the first half and full year earnings forecasts that were announced on May 13, 2016.

These forecasts are based on information that is currently available and on assumptions that we believe are reasonable. Actual sales and earnings may differ significantly from these forecasts. For information about business risk factors that may be a cause of differences in actual performance, refer to the business risk section of the Shobunsha Securities Report "Yuka-shoken Hokokusho" for the fiscal year ended March 31, 2016, which was filed on June 29, 2016.

## 2. Matters Related to Summary Information (Notes)

## (1) Changes in Significant Subsidiaries during the Period

Not applicable.

While it is not subject to the disclosure requirement regarding changes in specified subsidiaries, the Company newly established Tripcon Co., Ltd. in February 2016 as a wholly-owned subsidiary and included it in the scope of consolidation from the current period.

## (2) Application of Special Accounting Methods for Presenting Quarterly Consolidated Financial Statements

Not applicable.

#### (3) Changes in Accounting Policies and Accounting Estimates, and Restatements

Changes in Accounting Policies

Application of Practical Solution on a Change in Depreciation Method due to Tax Reform 2016

Following the revision of the Corporation Tax Act, the Company has applied the "Practical Solution on a Change in Depreciation Method due to Tax Reform 2016" (Accounting Standards Board of Japan (ASBJ) Practical Issues Task Force (PITF) No. 32, June 17, 2016) from the current period, and changed the method for the depreciation of facilities attached to buildings and structures acquired on or after April 1, 2016, from the declining-balance method to the straight-line method.

The effect of this change on profit or loss for the current period is insignificant.

## 1. Qualitative Information on Quarterly Consolidated Financial Performance

#### (1) Explanation of Results of Operations

During the first quarter of the current fiscal year (April 1, 2016 to June 30, 2016) (hereinafter, "the current period"), the Japanese economy gradually recovered in a continued strong employment and income environment. However, as appreciation of yen continued, reflecting uncertain global economy, corporate earnings and consumer sentiment remained at a standstill.

Against this backdrop, the Shobunsha Group's e-business sales were 685 million yen, down 214 million yen year on year, because of a continued decline in our sales associated with PNDs (portable navigation devices) due to popularity of free navigation apps as well as sluggish sales of light motor vehicles. Retail publishing sales also decreased significantly by 798 million yen year on year to 1,287 million yen. This was due to a change in timing to publish revised editions of maps and magazines that occurred at the end of the previous fiscal year, causing substantially more number of old editions to be returned to us in the current period than those returned in the same period of the previous fiscal year. Moreover, unlike the same period of the previous fiscal year, we did not have publications of completely revised edition of Japan travel guidebook series and other newly published products during the current period. While sales of special-order products slightly increased year on year, advertising revenue somewhat declined as we failed to achieve large project orders including tie-up advertisements. Overall, consolidated sales for the current period decreased 1,021 million yen (30.8%) year on year to 2,297 million yen.

The Group's profitability for the current period got worse than that for the same period of the previous fiscal year. While there was no provision of allowance for doubtful accounts unlike the same period of the previous fiscal year and was a reversal of provision for sales return, there was a substantial increase in returned products in retail publishing and a decline in sales of e-businesses, for which we had enjoyed a high profit margin. Furthermore, there were an increase in retirement benefit expenses due to application of the revised accounting standard for retirement benefits and also an increase in up-front costs for the new inbound business. Consequently, the Group reported operating loss of 521 million yen (compared with 173 million yen in the same period of the previous fiscal year), ordinary loss of 496 million yen (compared with 159 million yen in the same period of the previous fiscal year), and loss attributable to owners of parent of 500 million yen (compared with 178 million yen in the same period of the previous fiscal year).

## (2) Explanation of Financial Position

Total assets decreased 1,480 million yen (5.3%) from the end of the previous fiscal year to 26,583 million yen at the end of the current period. This was mainly due to decreases in notes and accounts receivable-trade of 1,132 million yen, investment securities of 423 million yen, other in current assets of 175 million yen and work in process of 109 million yen, which were partially offset by increases in cash and deposits of 148 million yen, software of 113 million yen and merchandise and finished goods of 97 million yen. Total liabilities decreased 565 million yen (8.8%) from the end of the previous fiscal year to 5,844 million yen. This was mainly due to decreases in provision for directors' retirement benefits of 246 million yen, notes and accounts payable-trade of 169 million yen, provision for bonuses of 155 million yen and provision for sales returns of 111 million yen, which were partially offset by an increase in other in non-current liabilities of 251 million yen. Total net assets decreased 914 million yen (4.2%) from the end of the previous fiscal year to 20,738 million yen. This was mainly due to a decrease in retained earnings of 845 million yen as a result of the booking of loss attributable to owners of parent and the declaration of cash dividends.

As a result, the equity ratio improved <u>0.8 percentage points</u> to <u>77.9%</u>.

## Cash flows

Cash and cash equivalents (hereafter "net cash") at the end of the current period on a consolidated basis increased 148 million yen from the end of the previous fiscal year to 10,097 million yen.

Net cash provided by operating activities was 535 million yen. The main factors were depreciation and amortization

of 86 million yen, a 1,132 million yen decrease in notes and accounts receivable-trade and other (net) of 241 million yen, while there were loss before income taxes of 496 million yen, a 156 million yen decrease in provision for bonuses, a 111 million yen decrease in provision for sales returns and a 171 million yen decrease in notes and accounts payable-trade.

Net cash used in investing activities was 324 million yen. The main factors were purchases of securities, investment securities and intangible assets of 300 million yen, 100 million yen and 137 million yen, respectively, which were partially offset by proceeds from sales of investment securities of 224 million yen.

Net cash used in financing activities was 339 million yen. The main factor was the cash dividends paid of 333 million yen.

There was also an increase in cash and cash equivalents of 276 million yen from a newly consolidated subsidiary.

## (3) Explanation of Consolidated Earnings Forecasts and Other Forward-looking Statements

Although sales and profits for the current period significantly decreased year on year, performance in the current period was largely consistent with the consolidated earnings forecast despite some increase in cost of sales as a result of accelerated implementation of the database maintenance activities. Consequently, we believe that performance in this fiscal year will be in line with the current forecast. Based on this outlook, there are no revisions to the first half and full year earnings forecasts that were announced on May 13, 2016.

These forecasts are based on information that is currently available and on assumptions that we believe are reasonable. Actual sales and earnings may differ significantly from these forecasts. For information about business risk factors that may be a cause of differences in actual performance, refer to the business risk section of the Shobunsha Securities Report "Yuka-shoken Hokokusho" for the fiscal year ended March 31, 2016, which was filed on June 29, 2016.

## 2. Matters Related to Summary Information (Notes)

## (1) Changes in Significant Subsidiaries during the Period

Not applicable.

While it is not subject to the disclosure requirement regarding changes in specified subsidiaries, the Company newly established Tripcon Co., Ltd. in February 2016 as a wholly-owned subsidiary and included it in the scope of consolidation from the current period.

# (2) Application of Special Accounting Methods for Presenting Quarterly Consolidated Financial Statements Not applicable.

## (3) Changes in Accounting Policies and Accounting Estimates, and Restatements

Changes in Accounting Policies

Application of Practical Solution on a Change in Depreciation Method due to Tax Reform 2016

Following the revision of the Corporation Tax Act, the Company has applied the "Practical Solution on a Change in Depreciation Method due to Tax Reform 2016" (Accounting Standards Board of Japan (ASBJ) Practical Issues Task Force (PITF) No. 32, June 17, 2016) from the current period, and changed the method for the depreciation of facilities attached to buildings and structures acquired on or after April 1, 2016, from the declining-balance method to the straight-line method.

The effect of this change on profit or loss for the current period is insignificant.
